Project Title: Lemonade

I would like to build this site about Beyoncé's sixth solo studio album, *Lemonade*, as multiple pages, with a navigation bar coming from a menu button. I would like there to be five sections, outlined below that correspond to the Wikipedia article ([https://en.wikipedia.org/wiki/Lemonade_\(Beyoncé_album\)](https://en.wikipedia.org/wiki/Lemonade_(Beyoncé_album))).

Landing Page – I intend for this page to be very image heavy, with little to no copy. If copy is desired, it can be pulled from the first section of the Wikipedia page (before “Background.”)

Background

Concept and Themes

Film

Awards
